

## Treatment Regimen Daytona® Pure + Daytona® SR

**OUR FAVORITE SKIN TREATMENT REGIMEN FOR FACIAL SKIN REJUVENATION.**

**A 3 Month Course of Treatment That Combines Daytona® Pure and Daytona® SR.**

**Daytona® Pure** is focused on restoring youthfulness to skin by providing deep hydration and by regrowing your own natural collagen.

**Daytona® SR** is focused on repairing environmental damage and contains 57 different ingredients that all have something to do with biorevitalization and skin rejuvenation.

**Together**, these two powerful skin rejuvenating products work together synergistically, and give a result that is better than either product individually.

### **RECOMMENDED INITIAL TREATMENT REGIMEN**

#### **Day 0: Daytona® Pure**

We start on Day Zero with one treatment of Daytona® Pure. Then approximately every 10 days we treat on the following schedule:

#### **MONTH 1:**

Day 10: Daytona® SR  
Day 20: Daytona® SR  
Day 30: Daytona® Pure

#### **MONTH 2:**

Day 10: Daytona® SR  
Day 20: Daytona® SR  
Day 30: Daytona® Pure

#### **MONTH 3:**

Day 10: Daytona® SR  
Day 20: Daytona® SR  
Day 30: Daytona® Pure

At the end of 3 months, we have treated the patient 4 times with Daytona® Pure and 6 times with Daytona® SR. We love the results of this treatment regimen so much that we decided to dedicate a page to it!

### **MAINTENANCE TREATMENTS**

To keep the results of the initial treatment regimen, we must follow-up with maintenance treatments. We recommend one treatment, once a month, alternating between products.

After the initial treatment regimen is complete, then wait 1 month and make 1 treatment with Daytona® SR. Wait another month then treat with Daytona® Pure. Next month, SR ... next month, Pure ... and so on, alternating between SR and Pure month after month.

For treatment information and Product Data information about Daytona® Pure and Daytona® SR, please refer to their respective pages.
